Lübeck is readily reached by car, train or plane. Hamburg airport is about 90 km from Lübeck. More than 70 airlines connect Hamburg with 120 destinations worldwide. For flight plan or further information see www.ham.airport.de. Quick and comfortable travel from Hamburg to Lübeck is provided by the bus transport TRAVELiner; for further information: www.traveliner.de.

Lübeck’s medieval Old Town was the first entire Old Town ensemble in Germany to be declared a UNESCO World Cultural Heritage in 1987. Narrow streets and alleyways, old merchant houses, the world-famous Holsten Gate (pictured at the front cover) and the historical Old Town island with Cathedral, St. Jacob’s and St. Peter’s church are only some highlights of this charming place which we will discover during our excursion on Thursday afternoon.

Situated a three-minute walk from the historic city centre, the Radisson Blu Senator Hotel provides a perfect location for HairS’13 with excellent meeting facilities and close access to local transit.

Symposium Fee
Early bird fees for registration and payment by August 1, 2013 are:
770 € for participants, 590 € for DWI member companies, and
330 € for speakers (one presenting author per oral presentation,
no reduction for poster authors). This fee includes meals, coffee
breaks, the excursion, the conference dinner, the book of abstracts,
and the proceedings. For registration and receipt of payment later
than August 1, 100 € will be charged additionally.

Accommodation
Accommodation is extra and 140 € per night for a single room and
160 € for a double room incl. breakfast. A room contingent has
been pre-booked by DWI. Reservations have to be made by the
participants themselves by August 7, 2013.

Cancellation
Only written cancellations can be considered. Cancellations
reaching DWI before August 12, 2013, will result in a 60% refund.
No refunds can be made after this date. Registrations may be
transferred to another person at no charge.

HairS'13
Lübeck / Germany
September 4-6, 2013
HairS’13 will follow the tradition of the DWI-organized hair scientific meetings offering a unique platform for discussing the newest and most appealing ideas of hair research and hair care science. During HairS’09 at the latest it became evident that findings from modern cell biology are gaining more and more importance in hair science and cosmetics and that there is a chance of inspiration and a need of communication between the so-called “dead hair club” and the “living hair club” as was stated in Weimar.

We cordially invite members from both „communities“ to attend HairS’13 and look forward to another outstanding scientific meeting of colleagues and hair experts from all over the world.

The Scientific Committee of HairS’13:

Alan Swift, Leszek Wolfram, Bernd Nöcker, Wolf Eisfeld, Martin Möller, Crisan Popescu, Brigitte Küppers and Janine Hillmer
